Show the Hunting World
You Support Ethical, Fair Chase Hunting and Conservation of Wildlife and Habitat...

JOIN THE ASSOCIATES PROGRAM TODAY!

As an Associate you will receive several benefits including:

- **FAIR CHASE MAGAZINE**: Published quarterly and dedicated to hunting and conservation of North American big game animals. It is available to current Associates; it is not available on the newsstand.
- **What You Can Expect in Each Issue of Fair Chase**
  - A dedicated section listing trophies recently accepted in the Club’s current Awards Program – a great reference guide, which can be used as a supplement to the last published records book by the Club.
  - Several pages of outstanding field photos of trophy big game animals that have been accepted in the Club’s current Awards Program.
  - Feature articles about current topics of interest to today’s hunter written by such well-known outdoor journalists as Craig Boddington and Wayne van Zwoll.
  - Other regular features include: The Self Guided Hunter – Information about planning trips, essential gear, drawing and purchasing tags, and much more.
  - Conservation Research – Learn about the projects that current wildlife students and professors are working on today.

- **You Will Also Receive Discounts and Other Benefits**: Associates receive a 20% discount on the Club’s books and merchandise, a wall calendar, and that these measurements and data are, to the best of my knowledge and belief, made in accordance with the instructions given.
- **In the Boone and Crockett Club’s records, North American big game harvested by the use of**
  - A. Spotting or herding game from the air, followed by landing in its vicinity for the purpose of pursuit and shooting;
  - B. Herding or chasing with the aid of any motorized equipment;
  - C. Use of electronic communication devices, artificial lighting, or electronic light intensifying devices;
  - D. Confined by artificial barriers, including escape-proof fenced enclosures;
  - E. Not in full compliance with the game laws or regulations of the federal government or of any state, province, territory, or tribal council on reservations or tribal lands;

**IT’S EASY... SIGN UP WITH YOUR TROPHY ENTRY!**

To join the Club’s Associates program and receive Fair Chase magazine quarterly, check the appropriate box on the reverse side of this form when you send in your trophy entry OR call toll-free (888)840-HUNT to sign up with a credit card.

**ASSOCIATES PROGRAM SUBSCRIPTION**

<table>

**FOREIGN SUBSCRIPTIONS**

Canada/Mexico add $5 per year for shipping and handling. All other countries add $10 per year.

For more information about the Club’s Awards Program, downloadable score charts, weekly field photos, conservation projects and much more, check out the official B&C web site at: [www.boone-crockett.org](http://www.boone-crockett.org)

I, ______________________________________________, certify that I have measured this trophy on ____________________________ at ____________________________

and that these measurements and data are, to the best of my knowledge and belief, made in accordance with the instructions given.

Witness: ____________________________ Signature: ____________________________

B&C OFFICIAL MEASURER

I certify that the trophy scored on this chart was not taken in violation of the conditions listed above. I certify that I have measured this trophy on ____________________________ at ____________________________

and that these measurements and data are, to the best of my knowledge and belief, made in accordance with the instructions given.

Unit Proprietor: ____________________________ Signature: ____________________________

B&C OFFICIAL MEASURER

**INSTRUCTIONS FOR MEASURING NON-TYPICAL MULE DEER AND BLACKTAIL**

All measurements must be made with a 1/4-inch wide flexible steel tape to the nearest one-eighth of an inch. (Note: A flexible steel cable can be used to measure points and main beams only.) Enter fractional figures in eighths, without reduction. Official measurements cannot be taken until the antlers have air dried for at least 60 days after the animal was killed.

A. **Number of Points on Each Antler**: To be counted a point, the projection must be at least one inch long, with length exceeding width at one inch or more of length. All points are measured from tip of point nearest edge of beam as illustrated. Beam tip is counted as a point but not measured as a point.

B. **Tip to Tip Spread**: Measured between tips of main beams.

C. **Greatest Spread**: Measured between perpendiculars at a right angle to the center line of the skull at widest part, whether across main beams or points.

D. **Inside Spread of Main Beams**: Measured at a right angle to the center line of the skull at widest point between main beams. Enter this measurement again as the Spread Credit if it is less than or equal to the length of the longer main beam; if greater, enter longer main beam length for Spread Credit.

E. **Total of Lengths of All Abnormal Points**: Abnormal Points are those non-typical in location such as points originating from a point (exception: G-3 originates from G-2 in perfectly normal fashion) or from bottom or sides of main beam, or any points beyond the normal pattern of five (including beam tip) per antler. Measure each abnormal point in usual manner and enter in appropriate blanks.

F. **Length of Main Beam**: Measured from the center of the lowest outside edge of burr over the outer side to the most distant point of the main beam. The point of beginning is that point on the burr where the center line along the outer side of the beam intersects the burr; then following generally the line of the illustration.

G. **Length of Normal Points**: Normal points are the brown tines and the upper and lower forks as shown in the illustration. They are measured from nearest edge of main beam over outer curve to tip. Lay the tape along the outer curve of the beam so that the top edge of the tape coincides with the top edge of the beam on both sides of point to determine the baseline for point measurement. Record point lengths in appropriate blanks.

H. **Circumferences**: Taken as detailed in illustration for each measurement. If brow point is missing, take H-1 and H-2 at smallest place between burr and G-2. If G-3 is missing, take H-3 halfway between the base and tip of G-2. If G-4 is missing, take H-4 halfway between G-2 and tip of main beam.

**ENTRY AFFIDAVIT FOR ALL HUNTER-TAKEN TROPHIES**

For the purpose of entry into the Boone and Crockett Club’s® records, North American big game harvested by the use of the following methods or under the following conditions are ineligible:

I. **Spotting or herding game from the air, followed by landing in its vicinity for the purpose of pursuit and shooting**;

II. **Herd or chasing with the aid of any motorized equipment**;

III. **Use of electronic communication devices, artificial lighting, or electronic light intensifying devices**;

IV. Confined by artificial barriers, including escape-proof fenced enclosures;

V. **Transplanted for the purpose of commercial shooting**;

VI. **By the use of traps or pharmaceuticals**;

VII. While swimming, helpless in deep snow, or helpless in any other natural or artificial medium;

VIII. On another hunter’s license;

IX. **Not in full compliance with the game laws or regulations of the federal government or of any state, province, territory, or tribal council on reservations or tribal lands**;

I certify that the trophy scored on this chart was not taken in violation of the conditions listed above. In signing this statement, I understand that if the information provided on this entry is found to be misrepresented or fraudulent in any respect, it will not be accepted into the Awards Program and 1) all of my prior entries are subject to deletion from future editions of Records of North American Big Game 2) future entries may not be accepted.

FAIR CHASE, as defined by the Boone and Crockett Club®, is the ethical, sportsmanlike and lawful pursuit and taking of any free-ranging wild, native North American big game animal in a manner that does not give the hunter an improper advantage over such game animals. The Boone and Crockett Club® may exclude the entry of any animal that it deems to have been taken in an unethical manner or under conditions deemed inappropriate by the Club.

**Date**: ____________________________ **Signature of Hunter**: ____________________________

**DATE**: ____________________________ **Signature of Notary or Official Measurer**: ____________________________

*Signature must be witnessed by an official measurer or a notary public.*
